RECEIVED

ILL. E.P.A. - D.L.P.C.
STATE OF ILLINOIS

Gentlemen:

Effective on the date specified in Special Condition 9 permit is hereby granted to Republic Steel Corporation, to develop and operate waste storage areas consisting of a portion of the S1/2, SW1/4, NW1/4, NE1/4, Section 30, and the E1/2, SE1/4, NE1/4, SW1/4, Section 18, all in T.37N., R.15E., 3rd P.M., all in accordance with the application prepared by T. Childress, and D. M. Gubanc, said application consisting of twenty-nine pages and one plan sheet, all dated June 16, 1982 and received by the Illinois Environmental Protection Agency on June 21, 1982.

This permit is subject to the standard conditions set forth on page 3, attached hereto and incorporated herein by reference, and further subject to the following special conditions:

1. This facility shall be developed and operated in accordance with Chapter 2, 3, 7 and 9 of the Illinois Pollution Control Board Rules and Regulations.
2. Special wastes generated at the site for disposal, incineration or further treatment elsewhere shall be transported to the receiving facility utilizing the Agency's supplemental permit system and manifest system.
3. This permit is subject to review and modification by the Agency as deemed necessary to fulfill the intent and purpose of the Environmental Protection Act, and all applicable environmental rules and regulations.
4. This facility shall be operated in accordance with this Agency's Division of Water Pollution Control Permit Number IL0002593.

DRAFT

5. Two areas may be used for storing special waste (electric furnace dust) in piles. One area is approximately 125 feet by 180 feet, plus 20 feet by 20 feet, all surrounded by a wall thirty feet high and roofed. A second area, adjacent to the first, is approximately 150 feet by 150 feet and covered by a tarp.
6. All barrels which contain wastes shall be maintained in good condition with no evidence of leaks, severe rusting or corrosion, or apparent structural defects. If a container is not in good condition or begins to leak, all wastes, and any waste spillage, shall be transferred to a container that is in good condition.
7. This Agency reserves the right to require installation of additional monitoring devices, to alter the selection of parameters to be analyzed and to alter monitoring frequencies as may be necessary to fulfill the intent of the Environmental Protection Act.
8. This permit is a Development Permit and Operating Permit issued pursuant to Rules 201 and 202 of Chapter 7: Solid Waste. This permit is not a RCRA Permit.
9. This permit shall become effective on the date upon which the Clerk of the First District of the Illinois Appellate Court enters an order dismissing with prejudice the cases of Republic Steel Corp. vs. Jacob D. Dumelle and Illinois Pollution Control Board, No. 81-2561 and No. 82-390.
10. A waste storage area approximately 61 feet by 20 with a one foot high curb may be used to store a maximum of 218 drums of special waste.

Very truly yours,

Thomas E. Cavanagh, Jr., Manager
